

Good Enough Is Not Allowed

For when nothing you do counts unless it is done perfectly.

WHEN TO USE THIS

Use this when you are stuck on something because it is not right yet.

What are you working on that is not good enough yet? Be specific.

What do you think happens if you hand it over the way it is right now?

How likely is that, honestly?

Not likely at all

Almost certain

What would done look like today, instead of perfect?

Finished and handed over is worth more than perfect and still in your drawer.
