

When Payday Is Far Away

Get through the stretch between now and the next money coming in.

WHEN TO USE THIS

Use this when there are days to go and not much left.

How many days until money comes in, and what has to be covered first?

What is the most pressing?

- ☐ Food
- ☐ Getting to work or school
- ☐ Keeping the power on
- ☐ Medicine or a prescription
- ☐ Something for the kids
- ☐ A payment with a date on it
- ☐ Phone or internet

Who could you ask, or what could you put off by a few days?

What is the one thing you will sort out first?

Getting through a short stretch is its own kind of work.
